#### DISOLVES STAINS:

By having one product that will dissolve and suspend stains, like coffee, make up, cola, uric acids, Merthiolate, salad dressings, oils, shoe polish, ink, grass stains, and many others, it will not only eliminate employee confusion, but resolve one of the most troublesome problems associated with carpet maintenance stains.

#### DIRECTIONS FOR USE:

Some individuals may be sensitive to ingredients in this product. Before use, read product label and MSD sheet. If questions remain, consult your employer or a physician. Shake can well before using.

1. For ease of application, blot up any excess moisture.
2. Spray Carpet Stain Remover directly on the spot and wait a few seconds to allow the chemical to work.
3. Spray a small amount of water on the area to help lift the stains.
4. Blot with a clean, white absorbent towel.
5. If the stain is set deeply into the pile, repeated applications may be necessary.

Since liquids will spread as they penetrate the nap, you will need to spray a surface area twice as large as the stain. A wet/vac pick up will help speed the drying process.

Vigilant attention to these preventive procedures will help extend the periods between carpet cleanings.

**Be sure to read all Directions, Precautionary and First Aid Statements on product labels before use of this or any Spartan product. If questions remain, consult your employer or a physician. Material Safety Data Sheets for all Spartan products are available from your authorized Spartan distributor or by visiting [www.spartanchemical.com](http://www.spartanchemical.com).**
